

Veyssel Kayhan

Junior Java Developer

Bodrum,Muğla

SKILLS

Technologies & Frameworks

Spring
RabbitMQ
Hibernate
Redis
Elastic Search
JWT
Zipkin
RESTful API
JSON
Axios

Programming Languages

Java
JavaScript

Front End Technologies

HTML5
CSS3
Bootstrap
React.js

Databases

PostgreSQL
MongoDB

Tools

GitHub
Swagger
Postman

Architecture & Patterns

Microservice Architecture
Monolithic Architecture
Tasarım Pattern
Solid Principles

DevOps

GCloud
Docker

Testing Tools

Mockito

Version Control Tools

Maven
Gradle
Git

Language

Turkish - Native
English - Advance

PROFILE

Transitionin from civil engineering to Full Stack Software Development, I bring a disciplined work ethic, strong problem solving skills, and a proactive approach. With a keen analytical mindset, I excel at tackling complex challenges and delivering innovative, user centric solutions. I am passionate about collaboration and effective communication, ensuring a productive team environment that drives project success.

EXPERIENCE

Intern

BilgeAdam Technology

Jul 2023 – Present

- Collaborated with a cross functional team to develop and maintain web applications using a variety of technologies, including Spring MV, Spring Boot, Spring Data, and Spring Security.
- Implemented Spring Web and Spring API Gateway to build robust and secure APIs for seamless communication between client side and server side component
- Utilized RabbitMQ messaging system to establish reliable and efficient communication between microservices, ensuring smooth data flow and interactivity.
- Designed and developed database schemas using Hibernate ORM and managed data persistence in PostgreSQL, ensuring efficient storage and retrieval of informatiow.
- Implemented clean and maintainable code by following SOLID principles, resulting in improved code readability and maintainability.
- Worked in an Agile environment, participating in Scrum meetings and actively contributing to the development process, including feature development, bug fixing, and code reviews.
- Collaborated with UI/UX designers to create user friendly interfaces, leveraging HTML, SS, Bootstrap, JavaScript, and React to deliver dynamic and responsive front end experiences.
- Employed version control tools like Git and participated in collaborative code repositories on platforms like GitHub for seamless code integration and collaboration.
- Actively participated in ongoing learning and professional development, exploring new technologies and trends in the field, including containerization and deployment using Docker, Gloud and Kubernetes.

Civil Engineer

Berkay Mechanical

Aug 2022-Jul 2023

EDUCATION

Star Software Development Bootcamp

BilgeAdam

Jul 2023 – Present

During a 6 month intensive training program, I received comprehensive full stack education with a focus on backend development. This program provided me with the opportunity to learn and apply the entire process of building a project from scratch to running it in a virtual environment, under the guidance of experienced professionals.I acquired hands on experience in designing, developing, and deploying projects, collaborating with experts in the field. The program fostered a deep understanding of the software development lifecycle and honed my skills in problem solving, code optimization, and effective teamwork.

Civil Engineering (100% English)

Izmir University of Economics

Aug 2017-Jul 2022

Intern

Bertoglu Construction and Architecture

Aug 2021- Sep 2021
